

Most Proud

List all the areas in your project that you are proudest of here.

1. I am really proud that the scoring functionality works.
2. I am proud of the how I was able to center the different text and hand objects to the screen.
3. I really like the images and style that I chose to go with. I think it makes the project look super nice.
4. I am also proud of the documentation that I created for this Python project on GitHub.
5. I am extremely proud of my ability to adapt and broaden my knowledge of pygame and git. Git was something that I have struggled with in the past and this project helped me nail the essential parts of it.
